Forecast for Saturday 23 Nov 2024

Weather: Heavy sleet and snow at first above 800m, quickly turning to rain at all levels this morning as milder air arrives. Heavy and persistent rain will continue through much of today, although the rain may become lighter this afternoon, before turning more showery this evening with a chance of thunder.

Chance of cloud-free hill tops above 800m: Nil, possibly improving 40% this evening across eastern areas.

Low Cloud and visibility: Generally very poor or poor visibility with rain, extensive cloud and fog above 400 or 500m with patches on lower slopes. This evening cloud lifts a little, to 500-600m and some breaks may develop across eastern areas.

Meteorologist's View

Storm Bert will bring very difficult or hazardous walking conditions with gusts of 70 to 80mph making progress almost impossible on high slopes. Drenching conditions from heavy rain with flooding of roads and paths possible.

Forecast for Sunday 24 Nov 2024

Weather: Heavy rain soon arrives, then clears east later in the night. Broken cloud follows, with clear or sunny periods and isolated showers. It will remain very windy on the tops with progress very difficult or hazardous.

Maximum wind: South or Southwest 50 to 60 mph gusts 70 to 80mph.

Chance of cloud-free hill tops above 800m: 10% overnight, improving to 80% by morning.

Low Cloud and visibility: Poor visibility at first in rain with extensive cloud above 600m. Visibility improving very good in the morning with distant hills clearly visible, and cloud generally lifting off the summits, but falling briefly poor in showers.

Temperature: **Valleys:** Plus 12 or 13C.
At 800m: Plus 10C falling to 6C.
Freezing level: Above summits.
